

Winter Nuclear & Particle Physics Conference

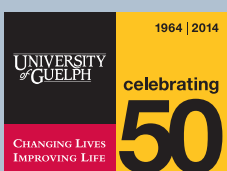

Mont Tremblant, Québec
February 12-15, 2015

The Winter Nuclear and Particle Physics Conference is a national meeting for the Canadian subatomic physics community, with a special focus on providing a forum for junior researchers (students and postdocs) and interaction with groups across Canada.

Featured Topics

- Nuclear physics and reactions; nuclear astrophysics
- Standard Model and the hadronic weak interactions
- Anti-matter physics
- Neutrino physics
- High energy astrophysics
- Particle physics and QCD
